both sessions via Zoom - Please RSVP for  
information - [nathalie.white@teaam.ca](mailto:nathalie.white@teaam.ca)

TEAAM has collaborated with Bailey Helicopters to provide Long Line and Medevac rescue in the Northern BC Area to patients in industrial and austere settings beyond the reach of BC Ambulance Service. Using this method allows TEAAM to respond quickly to the injured party and provide expedited extrication from the accident site and transport to an appropriate hospital or resources.
